

BUILDING PACKAGES **southeastern US only**

Every building package from Discount Metal is designed with your needs in mind. Whether it's one of our advertised specials or a custom building, our packages are expandable and flexible to work for you for years to come.

Each package comes with a set of directions to ensure ease of assembly for the do-it-yourselfers and the seasoned pros. For quick availability of material, we recommend the use of stock trusses and 12' bay spacing to make most efficient use of material for most jobs; but because every job is unique, we are able to customize our packages for your requirements.

Contact us to find out what sizes we have in stock.
